

Business Intelligence and Analytics

Efficiency at every angle

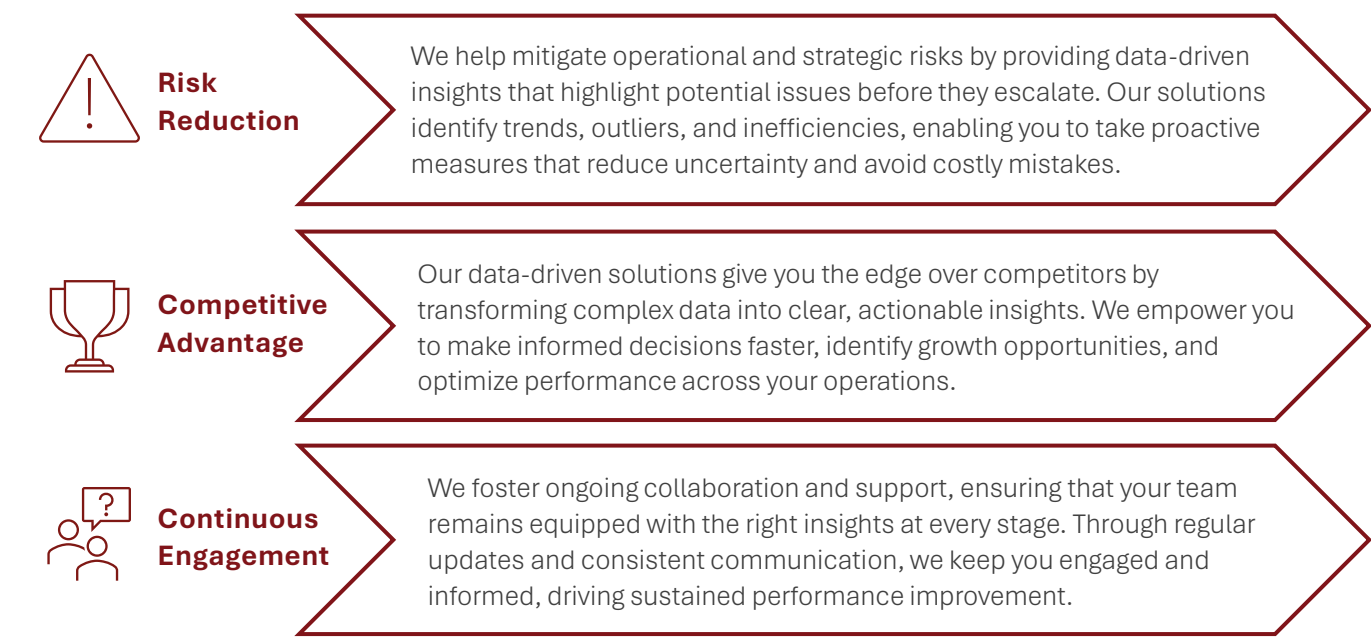

About Us

At Xenco, we specialise in transforming complex data into actionable insights that empower your business to make smarter, more informed decisions.

Our business intelligence and analytics services deliver clarity, enabling you to navigate through uncertainty with confidence. We understand the challenges faced by businesses in heavy industries, such as labor-intensive reporting, unreliable data, and difficulty accessing actionable insights.

By utilising cutting-edge tools and methodologies, we eliminate these barriers, providing you with the resources to drive operational improvements and gain a competitive advantage.

Whether it's reducing risk, improving operational performance, or providing continuous engagement, our goal is to give you the insights you need to make decisions that drive growth and success. We don't just deliver reports; we deliver results.

Our Approach

Our team takes a structured, data-driven approach to delivering business intelligence and analytics solutions. Our process ensures that every insight is actionable, and every solution is scalable.

Our Services

We provide tailored business intelligence and analytics solutions designed to improve efficiency, enhance decision-making, and drive measurable outcomes. Our **key services** include:

Diagnostic Analyses & Insight Pack

We conduct in-depth analyses across all areas of your organisation, identifying trends, outliers, and performance gaps. Our findings are delivered in a comprehensive insights pack, providing clear, data-driven recommendations for impactful and sustained improvement.

Reports and Dashboards

Working closely with maintenance experts, we develop solutions that optimise both planning and execution. This structured approach enhances reliability, reduces downtime, and provides real-time visibility into asset performance.

DME: Disciplined Maintenance Execution

We liaise with Maintenance Experts to deliver bespoke solutions to tackle issues as they rise during day-to-day activities. This methodology encompasses both planning and execution and provides a clear view of the current state.

Self-Service Power BI solutions

We create solutions to present the right information at the right level at the right time. From establishing KPIs to assisting the stakeholders on site, we offer all in between.

Our Expertise

Our team’s expertise enables us to deliver tailored solutions that address challenges like labor-intensive reporting, unreliable data, and long lead times. By implementing automated reporting, real-time dashboards, and self-service analytics, we ensure data is not just collected but effectively utilised to reduce risk, improve efficiency, and enhance operational visibility.

Our team is **experienced** in:

Operational Efficiency

Risk Management

Data-driven Decision-Making

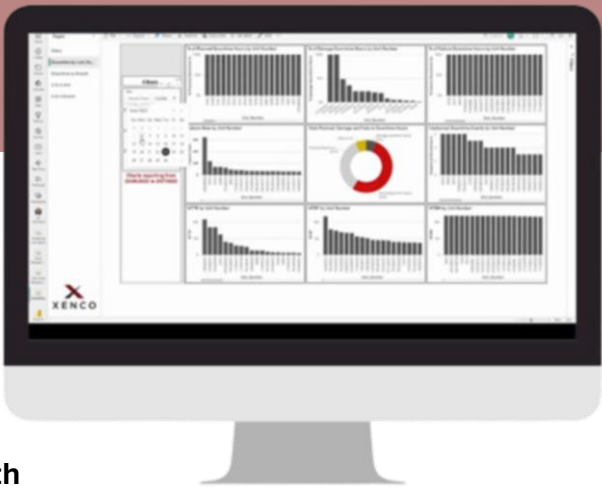

Strategic Growth & Performance

Reporting & Analysis

Maintenance and Asset Optimisation

EXPERIENCE | LEADERSHIP | INSIGHT

If you're looking to experience innovation and excellence at your business, get in touch with us today.
