

Mineral Processing

Efficiency at every angle

About Us

Founded in 2018, Xenco Services is a multi-disciplined, specialist service group that delivers executive and operational level support to businesses seeking significant improvements in productivity, efficiencies and company profitability.

With access to business acumen and decades of front-line experience in heavy industry, Xenco has the knowledge, passion and agility to tackle any business challenge.

How our team delivers **value**:

STRATEGIC EXECUTION

We focus on efficiency, cost-effectiveness, and long-term value creation.

SCALABLE SOLUTIONS

Whether tackling complex projects or optimising processes, we adapt to your business' needs.

PROBLEM SOLVING

We apply a proactive, solutions-oriented approach to overcoming obstacles.

Operational and Metallurgical Expertise

Our experienced Minerals Processing team delivers innovative operational and metallurgical solutions.

Our extensive operational experience, positions us to not only diagnose opportunities to improve your processing performance but also implement the necessary actions. We provide pragmatic plans and support to see them through.

By integrating with our team's wide range of capabilities, our Minerals Processing team ensures a seamless, full-lifecycle approach. This holistic offering enables us to drive efficiency, sustainability, and long-term value across your operations.

Our team has experience across a vast range of minerals and processes.

This in-depth knowledge, combined with our ability to adapt to site-specific conditions and project requirements, allows us to deliver tailored solutions that optimise performance, reduce costs, and enhance sustainability.

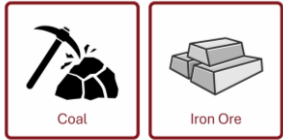

BASE METALS

29 Cu Copper 63.546	82 Pb Lead 207.2	30 Zn Zinc 65.39
50 Sn Tin 118.71	28 Ni Nickel 58.6934	28 Al Aluminium 26.9815

PRECIOUS METALS

78 Pt Platinum 195.08	79 Au Gold 196.9665
46 Pd Palladium 105.42	47 Ag Silver 107.8682

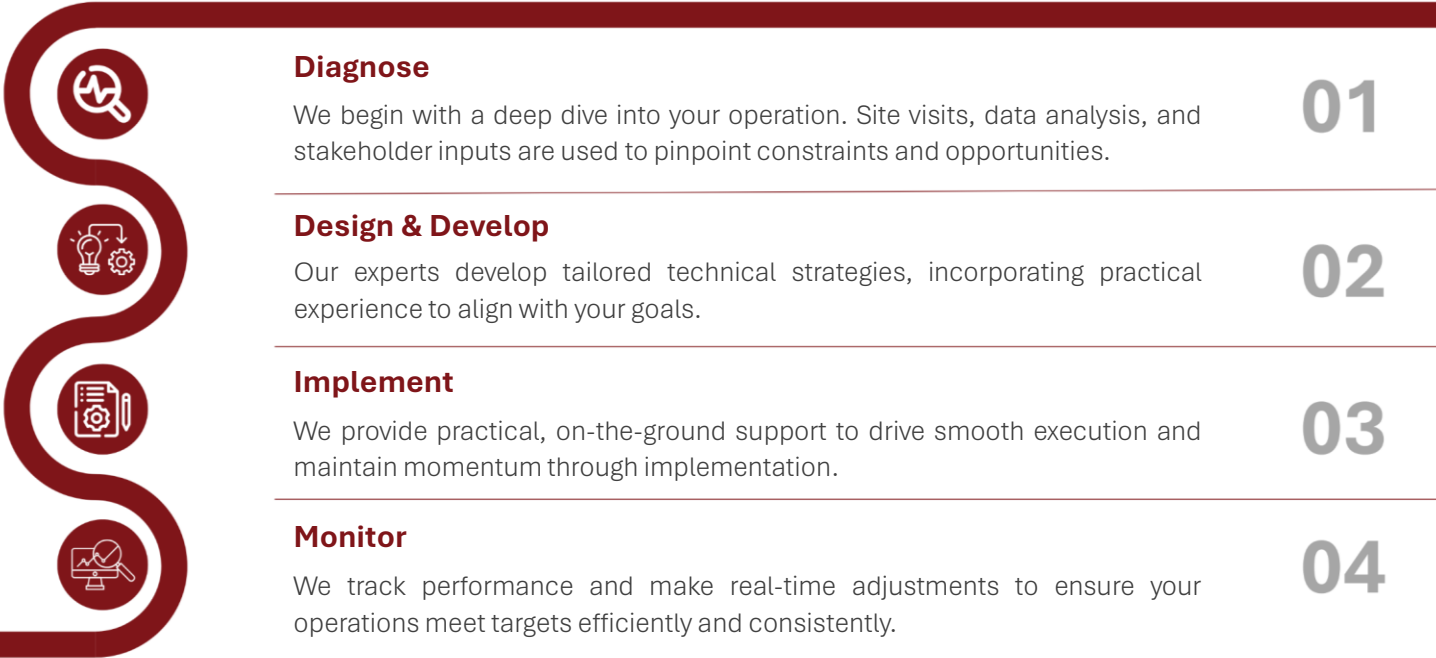

BULK COMMODITIES

Our Service

Our global team of experienced metallurgists and process engineers delivers practical, hands-on support across the full mineral processing lifecycle. We work closely with clients to uncover value, overcome bottlenecks, and tailor strategies that drive efficiency and performance across your operation.

Our team uses a comprehensive approach that delivers practical results across the mineral processing lifecycle.

Our team provides tailored **end-to-end support**:

Operational Support

We help identify constraints and inefficiencies in your mineral processing operations, offering practical solutions to optimise performance, improve recovery rates, and reduce downtime. Our team provides real-time insights and hands-on support to ensure smooth, efficient, and cost-effective operations. We aren't afraid to get our hands dirty.

Project Management

From initial planning to execution, we oversee mineral processing projects with precision and expertise. Our project management services ensure seamless coordination between teams, adherence to timelines, and successful project delivery - keeping your operations on track and within budget.

Project Technical Support

We provide in-depth technical expertise to support the design, implementation, and optimisation of mineral processing projects. Our specialists work alongside your team to troubleshoot challenges, refine methodologies, and ensure technical excellence across all project phases.

Commissioning Support

Bringing new processing facilities online requires meticulous planning and execution. We offer expert commissioning support to ensure your plant starts up smoothly, operates efficiently, and meets performance targets from day one. Our structured approach minimises risks and maximises operational readiness.

EXPERIENCE | LEADERSHIP | INSIGHT

If you're looking to experience innovation and excellence at your business, get in touch with us today.
