

# Sustainability Consulting

Problem solving, Planning,  
Governance

## About Us

Environmental management is **crucial** in maintaining operational efficiency and compliance. Our team understands the importance of future-proofing your environmental strategy.

As part of our Operations Improvement service line, our Sustainability Consultants and Environmental Management Experts focus on providing deliverable and transparent activities to simplify strategies and remove constraints.

**Straightforward, practical, no spin.**

## What We Do

Environmental Consulting

Governance Systems

Closure Planning

Tailings & Water Management

Our global team of sustainability consultants provide expert assessment and advisory services. In doing so, we partner with our clients to manage industrial, commercial and government initiatives involving environmental management. We provide **pragmatic, straightforward, and operational** advice on how to productively construct, execute, and comply with your environmental management plan.

Our team has **deep experience** across:

- Water, tailings and closure
- Regulatory compliance problem solving
- Environmental, Social, Governance strategy, reporting and implementation
- Management systems including tailings governance
- Integrated technical leadership
- Environmental approvals and stakeholder management
- Due diligence assessments
- Planning, studies and execution

## The Xenco Difference
