

An aerial photograph of an offshore oil rig and several support vessels. The rig is a complex of metal structures with multiple levels and cranes, situated in the middle of the ocean. Several smaller support vessels are positioned around the rig. The water is dark, and the sky is overcast. The image is partially obscured by a large red diagonal shape that covers the bottom right portion of the page.

# Project Lifecycle

Our project management services focus on enabling better business. From feasibility to closeout, we align every phase of project delivery with real-world operational outcomes. Whether it's streamlining a complex shutdown, embedding readiness planning early, or applying practical governance through our PMO model, our goal is simple: unlock value, minimise disruption, and improve performance across the board.

By supporting projects across the full lifecycle, not just during execution, Xenco ensures that capital is deployed effectively, risks are managed early, benefits are fully realised, and future investments are continuously improved.

## PMO | Governance

Our PMO framework ensures strong governance and disciplined execution across all initiatives. We establish a clear, consistent structure that supports decision-making, drives accountability, and maintains alignment with strategic objectives. Our governance model includes, but is not limited to:

 <b>Workstream Management</b>	Oversight and coordination of all workstreams to ensure alignment, interdependency management, and delivery against defined objectives.
 <b>Decision-making and Approvals</b>	Structured frameworks for timely decisions, formal approvals, and escalation pathways to maintain project momentum and manage risk.
 <b>Monitoring and Reporting</b>	Transparent reporting that tracks achievements, forecasts outcomes, highlights variances, and confirms that teams are aligned to the correct priorities.
 <b>Resource Allocation</b>	Strategic deployment of resources across initiatives to optimise capability, maintain delivery pace, and support priority areas.
